## The BAY Team

Teen alcohol use in our community has decreased by 30%  
 in the past ten years!

The BAY Team has advocated for laws, policies, curriculum, events and training to create a community where healthier choices are supported. We work together with parents, teens, schools, local government, businesses, health care providers, police, youth organizations, faith communities and the media.

The BAY Team promotes a safe and healthy Barrington through collaboration and communication.
